To Whom It May Concern,

I am writing to inform you of my interest to serve on the Michigan AEYC Governing Board as Vice President. As a long-term member of MIAEYC, I look to partner with others who provide high quality learning experiences for families and children, and the people who serve them. I've enjoyed serving in multiple capacities through MIAEYC events, such as conferences and institutes for twelve years, and more recently, through the Leadership Series. I also filled in for several months as the VP when the spot was vacant due to elections. I am looking to serve in a greater capacity in order to help increase my positive impact in this field.

I believe I have certain leadership qualities and abilities that make me qualified to serve in this position. I value creative solutions and methods for tackling hard issues, such as employee engagement and staff turnover that seems to plague our field. I appreciate working with others to imagine, create, serve, evaluate, and continuously improve to constantly become better, individually, as a group, and as a larger system. I enjoy gathering different perspectives, beliefs, and ideas to create something that serves everyone to the best of our collective ability. Above all, I seek to know and understand the various perspectives and needs within the early childhood field, whether it be through the role of parent, classroom teacher, administrator, health and wellness, community organizations, etc. I am very familiar with strategic plans and planning options and look forward to advancing MIAEYC's initiatives, especially related to mentoring opportunities.

I am the owner of Grow By 1, a business created for the sole purpose of helping individuals, groups, and systems learn, understand, and grow to their fullest potential. I am also an Executive Director with the John Maxwell Team, a global team dedicated to teaching authentic and empowering leadership principles around the world in any field or industry. I have an extensive background in early childhood role, including classroom teacher, administrator, consultant, ECS, etc. I value this somewhat unorthodox journey in early childhood, as it has provided me varying perspectives, which I would certainly bring with me to this role.

I believe the future is bright and full of opportunity for the field of Early Childhood and I am honored that I get to be a part of what MIAEYC is doing to serve children and families across the state. I will remain honored whether you accept me for this role or not. I believe in our future and will serve in whatever capacity I can find, or create! Please don't hesitate to reach out for more information.

Michelle Burkhard
